

Payment Integrity Solutions Update

January 11, 2024

Dear Providers,

Thank you for your continued partnership with SilverSummit Healthplan. As you know, we are committed to continuously evaluating and improving overall Payment Integrity solutions as required by State and Federal governing entities. As a reminder, we have partnered with Optum who is supporting us in performing prepayment claim auditing. The purpose of our review is to verify the extent and nature of the services rendered for the patient's condition and that the claim is coded correctly for the services billed.

For claims received on or after **2/15/24**, providers may experience a slight increase in written requests for medical record submission prior to payment based on the areas outlined below. These requests will come from Optum and will contain instructions for providing the documentation. Should the requested documents not be returned, the claim(s) will be denied. Providers will have the ability to dispute findings through Optum directly in the event of a disagreement.

Editing Area	Description	Lines of Business
Professional Claims for Select Surgical Procedures	Pre-payment medical record review for inappropriate billing of services not documented in the physician clinical notes. There is no medical necessity decision making involved.	Medicaid, Medicare, Marketplace
Facility NCCI Modifier Override	The algorithm identifies instances in which providers submit claims that utilize the NCCI bypass modifiers with CPT codes that are not allowed to be billed together for the same recipient, on same date of service, based on Medicare NCCI OCE edits.	Medicaid, Medicare, Marketplace

Thank you for your continued participation and cooperation in our ongoing efforts to render quality health care to our members. We look forward to helping you provide the highest quality of care for our members.

Thank you,

SilverSummit Healthplan
