

Opioid Response: Prescriber Resources

The online resources listed below offer free and/or paid educational activities on the appropriate prescribing of controlled substance medications which meet both the Nevada Medical Board and the DEA Registration training requirements.

Nevada State Opioid Response (SOR)

The [Nevada Opioid Response](#) is a state-funded program supported by the State Opioid Response grant has created provider resources covering various topics that promote best practices in specialty and primary care settings to enhance the delivery of medications for addiction treatment (MAT) and promote MAT sustainability.

Provider Clinical Support System (PCSS)

[PCSS](#) is a program funded by the Substance Abuse and Mental Health Services Administration (SAMHSA) focused on the prevention and treatment of opioid use disorders (OUD), other substance use disorders, and the appropriate treatment of chronic pain.

Safer/Competent Opioid Prescribing Education (SCOPE) of Pain

[SCOPE of Pain](#) offers a wider series of CME training modules designed to promote safe and effective acute and chronic pain management. SCOPE of Pain: Safer and Competent Opioid Prescribing Core Curriculum and supplemental trainings can be used to count toward the DEA licensure 8-hour training requirement as it aligns with SAMHSA's content recommendations required by the 2022 MATE Act.

American Medical Association Education Hub

The American Medical Association offers free (as well as paid) CME options regarding opioids, pain management and safe opioid prescribing: [Course 277 – Opioid Therapy and Pain Management CME: Guidelines, Research and Treatments](#) and [Course 302 – Substance Use Disorders and Addiction Education to Meet New DEA Requirements](#).

American Society of Addiction Medicine (ASAM)

[ASAM](#) offers multiple CME opportunities, including workshops, review courses and recommended trainings to meet DEA requirement as part of MATE Act.

Nevada Primary Care Association

[NVPCA](#) also has multiple educational tools for busy clinicians treating patient stimulant use in primary care settings.

American Association of Nurse Practitioners (AANP)

Visit [American Association of Nurse Practitioners](#) and select the filter for courses that meet DEA requirements.

American Association of Physician Associates (AAPA)

Visit [American Association of Physicians Associates](#) to view CME on Demand.
