

Update on Medicaid Physician-Administered Drug Reimbursement Methodology

July 27, 2026

Dear Provider,

Please be advised that reimbursement for Medicaid physician-administered drugs (PADs) is limited to the **lesser of** the following pricing benchmarks:

- Nevada Medicaid PAD Fee Schedule
- Medicare Part B Fee Schedule
- National Average Drug Acquisition Cost (NADAC)
- Wholesale Acquisition Cost (WAC)
- Actual Acquisition Cost (AAC)

The Health Plan conducts ongoing reviews of drug reimbursement methodologies and pricing data. As a result, reimbursement amounts may be periodically adjusted to remain aligned with the applicable reimbursement criteria.

We appreciate your partnership and commitment to providing quality care to our members.

If you have questions regarding reimbursement, please contact Provider Services 1-844-366-2880 or reach out to your Provider Engagement Representative.

Sincerely,

SilverSummit Healthplan
